

DVX v3 Software Upgrade

Description

This software upgrade is for DVX systems sold before May 2009. Version 2.38 is the last update for version 1 and 2 users, and is available free on our web site. There will be no more upgrades for DVX v2 software, but older DVX users can now upgrade to the latest version.

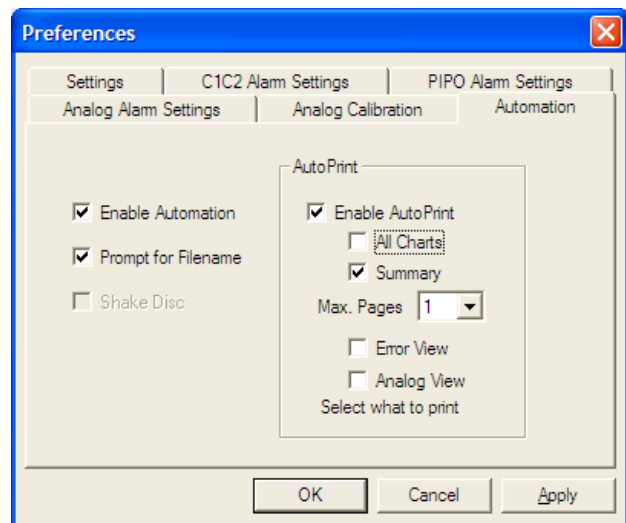

This new software adds some new features, and includes many bug fixes.

Summary of New Features

- Includes new **QuickScan** feature
- Includes new AutoSave feature
- Includes new AutoPrint feature
- Displays MID codes
- Displays ISRC on unencrypted DVDs
- Doesn't abort on "Medium Error"
- AMM-1 drivers for Windows 7/Vista
- Uses native Excel spreadsheet file
- Dongle is no longer required
- "Shake" feature for autoloader

Details

- **QuickScan** – Greatly reduces the test time without missing any serious errors by sampling the disc at 50µm intervals. Test a DVD5 in as little as 38 seconds! See chart below for test times.
- AutoSave – In Automation mode, results can be saved automatically even without the Autoloader.
- AutoPrint – When enabled, results will automatically be printed at the end of the test.
- Shake – This feature eliminates discs sticking together when used with the Autoloader
