

*ProPrinter*TM

Automated CD/DVD Printer

Description

Looking for high throughput printing of duplicated DVD's and CD's? The new Clover Systems *ProPrinter*TM is absolutely the highest performance and lowest cost automated CD printer on the market. It is a stand-alone, fully automated printer that can print up to 100 discs unattended. It will work with any type of duplication system, as it is self-contained and requires no additional robotics.

Features

- Hands-free fully automated operation
- High-speed: Integrated disc loader is much faster than old-fashioned robot arms
- Very low cost per disc
- Separate ink tanks for each of four colors greatly reduces ink cost
- Ultra-high resolution: Up to 4800 x 1200 color dpi
- Drivers and label design software included
- Ink low warning
- No adjustments or calibration of robotics

Benefits

When it comes to printing labels on your duplicated CD's, there are several choices. **Silkscreen** printing has a low cost per disc, but requires heavy equipment, provides a limited number of colors, and is impractical for small quantities. **Thermal** printing also has a low cost per disc, but also provides a limited number of colors, and the purchase

cost is high. **Inkjet** printing is the most practical for most duplicators, because the initial cost is low, and full-color photo quality images are provided.

Clover Systems ProPrinter uses separate refillable ink tanks for each color (CMYK). Other CD printers combine CMY into one cartridge, which means that if you use a lot of one color, you have to replace the whole cartridge, even though the other two colors are unused! With separate ink tanks, you only replace the colors you use. In addition, ProPrinter uses continuous ink supply with 125 ml ink tanks. Ink can be purchased in bulk and refilled "on the fly".

HP Color Cartridge (Print Factory)	\$34.99 19ml 3 color	\$1.84 / ml
Rimage Color Cartridge		
Primera Color Cartridge:		
Bravo	\$42.95	
Signature	\$52.95	
Signature III & IV	\$57.95	
Clover ProPrinter Color Ink Tank	\$49.95 for 125 ml	\$0.40 / ml

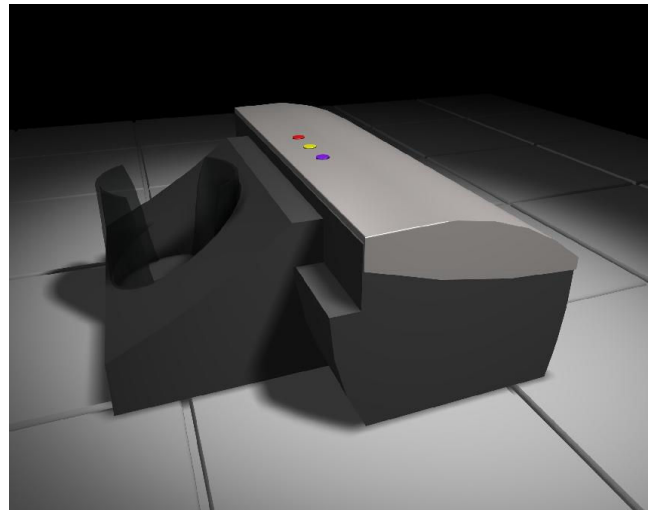

Specifications

- **Resolution** = Up to 4800 x 1200 color dpi
- **Disc Types** = 120 mm InkJet Printable
- **Buffer/Ram** = 56 KB
- **Standard Interfaces** = USB, IEEE 1284 parallel
- **Power consumption** = 18.5 W
- **Dimensions** = 16.5"W x 6.3"H x 10.8"D
- **Weight** = 7.3 lbs.

--- Specifications are subject to change without notice ---

System Requirements

- Intel Compatible PC, Pentium or higher, MacIntosh
- Operating Systems supported: Windows® 95/98/2000/Me/XP, Mac® OS 8.6 - 9.x, Mac OS X
- One parallel or USB Port

Warranty

All Clover Systems products are sold with a one-year warranty.
